

**The position of quality officer at JetSupport is truly a challenging one. On the one hand it is our responsibility to secure compliance with the many rules and regulations, on the other hand we strive to offer our customers innovative and flexible services around the clock. It is the quality officer's challenge to find the most effective way to fulfil these in the best way possible.**

JetSupport is an EASA and FAA Part 145 approved base maintenance station. We provide technical services and support to business aviation and special purpose aircraft. Conveniently situated adjacent to the Business Aviation Terminal at Amsterdam Schiphol Airport, enables us to support the customer immediately at their arrival, assuring the availability of the aircraft at all times. With the added value of our EASA 145 and FAA certified avionics component overhaul and repair station, we are capable to service a broad range of components, equipment and systems.

We are inviting candidates to apply for the fulltime position of:

## **QUALITY OFFICER**

In this vital role you will monitor and assure compliance with relevant rules and regulations in order to maintain the required certificates and approvals.
