

JetSupport provides technical services and support for business aviation and special mission aircraft. We focus on flexibility, transparency and a personal touch. We continuously improve our operations in order to meet and exceed the needs of our customers. Our technical services are customized for the most popular business aviation aircraft types. Our customers' value maximum aircraft availability which we provide by conducting preventive and corrective maintenance. We also facilitate special projects, ranging from small modifications up to complete avionics retrofits. Our service centre operates 7 days a week in two shifts ranging from 07:00-23:00.

The growth of our business makes it necessary to expand our Airframe Maintenance Team in Amsterdam with a
